This deep n groovy three tracker is a techie story stretching from Sweden all the way to Argentina this time. The original track "Designated" by Jeff Bennett is a Deep "melodic" dub Tech-house track. It has a "Swapping" feeling over it.

This has been remixed by Lega ([www.lega.com.ar](http://www.lega.com.ar)) from Argentina who has the warm atmosphere from South America to it. And last but not least there is a Dubby acid remix by Jeff Bennett.
