More info: www.jeffbennett.info

Ok, "A valley to cross" brings you some club friendly Tech-house in three different versions for your different moods. The original is a bit atmospheric but still keeps the punkiness going. Then Diego Cid who has worked with labels/artist like: Wally Lopez, Weekend rec, strictly rhythm + many more makes it more minimal & twisted and lastly Jeff Bennett darkens things up a bit in his dub mix. In the end you are the judge.
